U.S. Patent Application

Title: ELECTRONIC FACTORING U.S. Application No.: 09/447,524

Filed: November 23, 1999 Our Reference: ENET30.005A **RECEIVED** 

SEP 1 0 2003

**GROUP 3600** 

Dear Stan:

As discussed, in light of ENET30's outstanding balance and immediate inability to pay for future legal services, we are withdrawing as your attorneys in the United States Patent and Trademark Office. Enclosed is the file.

Also enclosed is a copy of our Petition to Withdraw that we will file with the U.S. Patent and Trademark Office.

Our withdrawal, however, will not result in the abandonment of the application. Since this application was filed after June 7, 1995, the life of any patent issued on it will expire at a date that begins to run from the filing date, rather than the issue date, as in the past. However, the patent will not become effective until it is issued, and thus, if the application is not prosecuted promptly to issuance, the effective life of the patent will be shortened.

It is our understanding that you will handle all further action in connection with this file. Enclosed for your reference is a printout of the dates entered into our docketing system as of March 4, 2003 for this file. We make no representation as to the accuracy of this information or the information contained in the enclosed status report.

As you have taken over responsibility for the prosecution and maintenance of this patent application, we are closing our files and removing all dates from our docketing system. Thus, we will not be providing you with any reminders of due dates in connection with the above-identified case.

Please sign and return the enclosed copy of this letter acknowledging receipt of this file. If you have any questions, please do not hesitate to contact us.

Sincerely,

Eric M. Nelson
